## DON'T BE HYPNOTISED,

Hoodwinked, hoodooed, or over-persuaded into accepting a substitute for Doctor Pierce's Favorite Prescription with its record of nearly 40 years, embracing hundreds of thousands of cures of woman's peculiar ailments. It's the only remedy for woman's ills sold by druggists, that is not full of "booze"—poor whisky, or bad alcohol.

A guarantee of $1000 is offered that "Favorite Prescription" contains no alcohol, opium or other harmful drug. Keeps in any climate.

"Favorite Prescription" is a powerful invigorating tonic, and imparts strength to the whole system and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

It is an insult to your intelligence for a dealer to attempt to palm off upon you an alcoholic *substitute* for this world-famed medicine. You *know* what you want. It's his business to *meet that want*. When he urges some *substitute* he's thinking of the larger profit he'll make—not of your welfare.

**$50,000** GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away $50,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will **you** share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

If out of health, write to old Dr. Pierce. He will send you good, fatherly, professional advice without charge.

Pierce's Pleasant Pellets

These sugar-coated little Pellets are the smallest, the easiest to take, and the easiest in the way they act. No griping, no violence, no disturbance to the system, diet or occupation. They are the Original Little Liver Pills, first put up by old Dr. R. V. Pierce, over 40 years ago. They have been much imitated but never equaled.

They come in vials, always fresh and reliable: a convenient vest-pocket remedy.

## HAIR TELLS CHARACTER.

**Color of Hair Said to Indicate a Person's Temperament.**

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

E. S. Leadbeater & Sons, Special Agents.

## STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weaken, and become diseased.

## Kodol
### Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

**Digests What You Eat**

## THE HOUSE OF ROTHSCHILD.

The death in Paris early yesterday morning of Baron Alphonse de Rothschild, head of the French branch of the banking house bearing the name of Rothschild, and governor of the Bank of France, brings to mind many interesting facts in connection with the rise of the banking houses bearing the Rothschild's name.

In the middle of the eighteenth century there lived in the town of Frankfort-on-the-Main a husband and wife of the Hebrew persuasion, who lavished all their caresses upon a son, whom they destined for the profession of a schoolmaster.

The boy, whose name was Meyer Anselm Rothschild, and who was born in Frankfort in the year 1743, exhibited such tokens of capacity that his parents made every effort in their power to give him the advantage of a good education, and with this view he spent some years at Furth, going through such a curriculum of study as appeared to be proper. The youth, however, had a natural bent toward the study of antiquities, and this led him more especially to the examination of ancient coins, in the knowledge of which he attained to considerable proficiency.

Here was one step onward in the world, for in after years his antiquarian researches proved the means of extending and ramifying his connection in society, as well as of opening up to him a source of immediate support. His parents, however, died in his eleventh year, and on his return to Frankfort he set himself to learn practically the routine of the counting-house.

After this he went to Hanover in the employment of a wealthy banking-house, whose affairs he conducted for several years with care and ability, and then there opened under his auspices, in his native city, the germ of that mighty business which was destined to act so powerfully upon the governments of Europe. Before establishing his little banking-house Meyer Anselm Rothschild prepared himself for the venture by marrying, and his prudent choice contributed greatly to his eventful success. Subsequently he returned to Frankfort, where, after having engaged in the banking business on his own account, he became the banker of William IX., the landgrave of Hesse.

Meyer Anselm first became known as a negotiator of government loans in 1792 by procuring from the Landgrave an amount of money sufficient to pay the ransom imposed by the French General Custine upon the people of Frankfort, as an alternative of the sacking of their city. This incident caused his services to be afterwards frequently in demand among the smaller German potentates. In 1800 Napoleon decreed that the states of the sovereigns of Hesse Cassel and Brunswick were forfeited, and sent an army to enforce the decree.

The elector of Hesse decided on fleeing, but being the possessor of $5,000,000 in silver, which he was unwilling to give up to Napoleon, he was in a quandary what to do with it. Sending for Rothschild, he offered him the use of the money without interest if he would remove it to a place of safety. The offer was accepted and the great sum was enjoyed by the banker and his two sons until the banishment of Napoleon to Elba, when the elector gave notice that he would withdraw it.

The return of Napoleon, however, caused the elector so much alarm that he urged the Rothschilds to keep his treasures at the interest of 2 per cent. per annum, which they did until 1823. The faithful and able management of the Rothschilds won for them the confidence of courts and financiers. Meyer Anselm had 10 children, 5 of them sons, all of whom survives him.

The five brothers constituted but one firm, in which each had an equal interest, but transacted business under five branches, in as many different European cities, each being in the charge of one of the brothers. Nathan Rothschild is said to have realized $1,000,000 by knowing the result of Waterloo eight hours before the British government. For many years the Rothschilds have been the takers of the loans of the European governments, and have in more than one instance prevented war by refusing to furnish its sinews.

What Peabody did for London the Rothschilds were doing for Paris in erecting model cheap dwelling houses for workmen. Last July $2,000,000 was presented by the Barons Alphonse, Gustave and Edmond de Rothschild to the municipality of Paris for this purpose, and the proceeds from renting out the apartments, instead of being devoted to the erection of more model dwellings, as Peabody specified, will be used in Paris to found cheap restaurants, baths, hotels, amusement places, and all that can transform the workmen's neighborhood into a healthy, comfortable and agreeable locality.

Baron Alphonse originated the scheme, and was president of the committee composed of six members of the Rothschild family and four prominent men. This gift has particular importance from the fact that it is the first effort of the kind seriously made in France. It had been vaguely hoped that parliament might, at some time, vote a special appropriation for such a purpose, but the day seemed so distant that the Rothschilds generously stepped into the breach, to the great relief of the municipality.

## The "Force" of Herpicide.

(THE ORIGINAL REMEDY THAT KILLS THE DANDRUFF GERM)

Even the first application of Newbro's Herpicide shows the hair-saving and satisfying "force" that is in it. This "force" is the sum of two characteristics that are united in no other hair remedy

Herpicide has the ABILITY to destroy the dandruff microbe, and the QUALITY to delight those who wish a dainty hair dressing. It holds the secret of popularity and pleases every one who is discriminating enough to have a preference. It is not sticky. It will not stain the hair.

The curative effect of Herpicide is sometimes little short of marvelous, for after the dandruff germ is destroyed, and kept out of the scalp, the hair is bound to grow as nature intended. It stops itching of the scalp almost instantly.

"More Than We Claim."

My customers are so pleased with the results of your Herpicide that I am sold out.

One especially is well pleased, for I cut the hair that is growing on his once bald head the other day. Signed W. R. RAVENCROFT.

is often as great as women's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five [5] physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured and can now perform all her household duties." Guaranteed by E. S. Leadbeater & Sons, druggists, price 50c.

**Chamberlain's Cough Remedy the Very Best.**

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Gibson & Timberman and W. F. Creighton & Co.

**There Is a Difference.**

The difference between Kennedy's Laxative Honey and Tar and all other Cough Syrup is that it moves the bowels, thus expelling a cold from the system. This relaxes the nerve-tissues and by its healing effect on the throat and lungs the cough is relieved—cured entirely. Kennedy's is the original Laxative Honey and Tar and contains no opiates. Good alike for young or old. Tastes good. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick street.

AND VIRGINIA ADVERTISER

SATURDAY EVENING, MAY 27, 1905.

THE REPUBLICAN cuckoos, including several newspapers, are having a difficult task in defending the President's Panama canal policy, for the simple reason that he changes front so often. A few days ago he decided to buy ships and supplies for the canal in the cheapest markets and the republicans referred to hastened to his support. Then, it was stated, he would only charter ships from foreign lands and buy only such supplies in those lands as are absolutely necessary at this time and, as quick as a flash, these same republicans approved of this policy also. Now it is announced that the President will carry out his original plan of canal supply purchases, the protests of the "standpatters" to the contrary notwithstanding, and, behold, the cuckoos are still with him. Indeed the President has many blind followers who agree with him as quickly as did Polonius with Hamlet. The cloud is like a camel, it is backed like a weasel and is very like a whale!

THE DEATH in Paris yesterday of Baron Alphonse de Rothschild, head of the French branch of the banking house bearing the name of Rothschild and governor of the Bank of France, recalls many of his acts of munificence toward relieving those upon whom fortune never smiled. The Baron was known for his lavish charities, one of which was the gift of $2,000,000 for the erection of workingmen's homes in Paris. The Baron also devoted large sums of money for bettering the condition of the poor of that city, among whom his memory will be cherished. Libraries and hospitals may be auxiliaries to storied urns in perpetuating the names of the opulent, but we are told the proffer of a cup of cold water is an act which will not be forgotten in the world to come. The late Baron brought smiles of gladness to many while he lived, and now when he is to be gathered to the fathers the poor realize that they have lost a friend indeed.

THE OFFICIAL figures of the recent police census of the District of Columbia show that more than one-third of the population of Washington is composed of negroes. The influx of negroes to Washington began in the early days of the civil war, and at the close of that conflict thousands more were carried there to cast ballots when the people of the District of Columbia were allowed votes. The grandfathers of many of the negroes now living in Washington were among those who were brought from Virginia and Maryland farms in flocks of fives, tens and hundreds and voted. Many never returned to their homes, and the generation that followed, having been born under the protection of the Freedmen's Bureau, hived in and around Washington. Many have developed viciousness, idleness and appetites unknown to their progenitors who had been reared in the homes of white people.

PRUSSIA is said to have a Dreyfus case. Hellmut Wessel, formerly a first lieutenant and instructor in the artillery and engineers of the School of Charlottenburg, who is charged with swindling, will be placed on trial at Thom next Monday. He is also charged with selling plans of German fortresses to France. Wessel is the husband of Matilda Baumler, the "veiled lady" of the second Dreyfus trial. In 1898 he found an asylum in France and lived there for some years. Wessel followed a precarious career in Italy, where the German authorities caused his arrest and after 16 months' imprisonment secured his extradition.

SCENES which are at present terrifying Warsaw are attracting the attention of the world. Jews and Christians are vieing in brutality under the guise of reformers, by instituting a reign of terror in precipitating a movement towards elimination of disorderly houses and the severing of questionable relations between certain men and women. While the latter class may be living in violation of the laws of God and man, it may be said that the reformers, in resorting to violence and endangering the lives and limbs of people in no way responsible for the conditions which it is intered to correct, are as much law-breakers as those they are attempting to reform.

THE CONDITIONS incident to the teamsters' strike in Chicago remain practically unchanged, and disorders were frequent yesterday afternoon. In some instances patrol wagons containing policemen were stoned, while other vehicles were attacked. Fortunately no one was killed, although several serious affrays occurred, and the police were taxed to their utmost to keep down the rioters. It is feared that more dire results will mark the conflict between the teamsters and the employers before the end is reached, as attempts are being made by the former and others who are upholding them to cause sympathetic strikes among workmen in Chicago.

SPEAKING to a group of business men in the office of Governor Hoch, in Kansas City, yesterday, Secretary Shaw said that the United States could build an isthmian canal yearly without an appreciable increase of taxation. This is but a specimen of the extravagant talk of those who now have the dignity of the ship of state in hand. The assertion that the government is in a position to spend $600,000,000 annually in constructing canals with the enormous drain incident to holding of dominion on faraway islands is wild, to say the least.

WHEN the American rolling mills can produce steel rails cheaper than they can be made abroad, and yet this country imposes a duty on the foreign article by means of which the rolling mills may collect $28 a ton from American and $13.80 a ton from foreign customers, it seems as if even the intellect of the stand patters may recognize that the tariff is a burden borne at home; but no such revolutionary idea is permitted to creep into their minds.

## From Washington.

Correspondence of the Alexandria Gazette.]

Washington, D. C., May 27.

The reported presence of a large section of the Russian fleet off Saddle Islands is confirmed by official advices received this morning by the Navy Department from the American naval attache at Tokio Naval officers here are inclined to the belief that if this squadron contains three battleships, as reported, the rest of Rojestvensky's fleet is not far distant. They do not believe that he would divide his heavy fighting force in the face of the enemy, thus making both detachments vulnerable. Private advice of an entirely authentic nature received in Washington this morning announce that more than 21 Russian vessels, including 3 battleships and 3 cruisers, are off Saddle Islands, which are about 60 miles southeast of Shanghai. It is believed in official circles here that the warships noted in this dispatch acted as convoy to colliers and transport ships which Admiral Rojestvensky desired to detach from his fleet in anticipation of an engagement with Togo.

Great significance is attached to the report of the American naval attache at Tokio that "more than 21 Russian vessels, including three battleships and three cruisers" are off the Saddle Islands, just a little southeast of Shanghai. He evidently received his information from the Japanese war office and there is no reason to doubt its accuracy so far as it goes. The report, however, shows on its face that it was not the result of careful observation but was sent off hurriedly without waiting for details. Six fighting ships were actually distinguished but it is believed here that among the others referred to in the word "more" the remainder of Admiral Rojestvensky's fighting line will be discovered It is inconceivable to the naval strategists here that the Russian Admiral would split his fighting force into two divisions, thus making each one vastly inferior to the Japanese adversary. Rojestvensky has about sixty ships of various kinds under his command. Everyone can appreciate how difficult it would be to an observer to pick up that number of vessels at sea and how almost impossible it would be without a minute investigation to distinguish accurately which among the leaden colored vessels were battleships, cruisers, or transports. It is therefore confidently expected that later reports will demonstrate that the entire Russian squadron is now off Shanghai. Rojestvensky is now in the zone of commercial activity and his movements will be reported frequently. News of a battle between the belligerent fleets is expected within the next day or two. Rojestvensky, it is believed here, has only seven really available battleships and only two or three cruisers that will count for anything in a fight. The Japanese have four battleships and at least eight armored cruisers which are almost as effective as battleships. For Rojestvensky to divide his force would therefore be to invite destruction. The presence of the Russians at Saddle Islands appears to confirm the recent reports that they made their way north through the Batun channel, north of the island of Luzon, of the Philippine group, giving the Formosa straits a wide berth on account of the danger from Japanese mines.

An interesting report has been made to the general staff by Capt. Carl Reichmann, U. S. A., military observer with the Russian army, in which he comments freely upon the sluggishness of the Russians as compared with the Japanese, due largely to the difference in the loads required to be carried by the soldiers of the two armies. He draws two lessons from his observations: The desirability of each soldier of the United States army in a campaign being equipped with an intrenching spade, and the general lightening of his load. "I consider the spade as important a part of the soldiers armament as his rifle," says Capt. Reichmann, "and I believe that he ought to carry the spade himself. Of course his load must be lightened to compensate for the burden of the intrenching tool, but I am of the opinion that this load ought to be lightened anyway, on general principles." Capt. Peyton C. March, military observer with the Japanese, in a similar report reaches like conclusions.

The President is seriously considering the postponement of the date of the promised extra session of Congress this fall from the middle of October until a month later. Senator Cullom, of Illinois, called at the White House this morning, and on leaving the President's office remarked to your correspondent. "I do not believed there will be any extra session of Congress until after the fall elections, and I sincerely hope there will not be any then."

Clarence A. Edwards, of the Canal Commission, by E. A. Secretary Shaw is of the opinion that borrowing trouble is a poor way to meet the deficit.

Perhaps that New York preacher who says he has no use for a conscience might secure a job as chaplain to the Philadelphia gas grafters.

Chicogo had another exciting day in corn yesterday, the May option of that cereal declining 7¾ cents below the closing prices of the day before.

At Fort Worth, Tex., yesterday the General Assembly of the Southern Presbyterian Church voted against federation, but continued its committee for conferences with other branches of the church.

Major John M. Carson, the veteran newspaper correspondent in Washington, will be appointed chief of the Bureau of Manufacturers, Department of Commerce and Labor, to succeed Mr. J. Hampton Moore, resigned.

Gov. Wm. L. Douglas, of Massachusettes, announced last night that he will not be a candidate for re-election in November. His reasons are that his business affairs requires all his time, and that he has no taste for public office.

George E. Fisher declared in New York yesterday that he was in no way responsible for the failure of the Merchants Trust Company, accusing the Goulds of squeezing the company in an attempt to control Virginia concerns.

## RIOTING IN CHICAGO.

Rioting broke out afresh yesterday in Chicago. Although nobody was seriously hurt, there were a number of vicious fights in the lumber yards, during which the police were compelled to use their clubs, and in one instance revolvers, to disperse the crowds.

Yesterday evening general rioting was prevalent thoughout the lumber yards, and particularly near west Thirty-fifth street and Center avenue. Lumber wagons returning from making deliveries were attacked by crowds at every available opportunity. Large numbers of men, armed with clubs, slungshots, and bricks, accompanied by jeering women and excited children, filled the sidewalks along Center avenue, west Thirty-fifth street, Loomis street, and Archer avenue, awaiting the passage of wagons which were believed to be unguarded.

A patrol wagon and a detail of policemen were sent to protect other lumber wagons which were on the way home. Stones were hurled at the patrol wagons, and the policemen were forced several times to jump from the wagon and charge the mobs before the streets could be sufficiently cleared to enable them to reach the lumber wagons.

A crowd of union pickets had been stationed in a saloon in Thirty-fifth street to block the passage of the lumber trucks. The police dashed into this saloon, used their clubs freely, and chased the pickets down the street. The return of wagons to the lumber yards was marked by repeated attempts to block the streets, and the police made numerous charges into the mobs.

The worst fight in the lumber yards occurred at west Twenty-second street and Ashland avenue, where a crowd of men and boys had all through the morning hurled stones and clubs at every passing lumber wagon. Finally a wagon on which Policeman Bagenski was a passenger came along, and the mob greeted it with the usual volley of stones. They also threatened to attack the drivers and the situation was so serious that the officer, drawing a revolver, fired six shots at the crowd, which fled in confusion. None of the bullets hit anybody.

The strike yesterday spread in a small degree throughout the building trades. There were a number of instances where woodworkers refused to receive the material delivered by nonunion teamsters and walked out.

### Writ Refused.

The Court of Appeals has refused a writ of error in the case of Wright vs. Groome, from the Circuit Court of Fauquier county. The case was a most interesting one, involving the validity of a will which had not been signed. Mrs. Groome, a widow, died, leaving an estate valued at $10,000. She made a will four years ago, and it was properly attested by her, leaving the property she then owned to her son.

Some time ago, the early part of last year, she decided to make a second will, making notes of how she intended to dispose of her estate. These notes she forwarded to a lawyer in Philadelphia with instructions to prepare a will for her along the lines indicated in the notes which she sent. The lawyer did draw the will, but for some reason the work was not done as quickly as might have been, and when the will was forwarded it reached its destination after her death, a day or two before. It was contended that the notes which she had forwarded were valid as a will, and suit was brought accordingly to establish the notes as the last will and testament. The trial court held otherwise, and the appelate court on Thursday affirmed the decision.

### Presbyterians Refuse to Unite.

The General Assembly of the Southern Presbyterian Church at Fort Worth, Texas, yesterday voted against federation, but continued its committee for conferences with other branches of the church. The vote stood 94 to 82.

The committee was instructed to make its report one year hence at the meeting of the General Assembly in Greenville, N. C.

The committee is to be increased by one member from each synod not now represented. It is believed that if a conservative plan for a closer co-operation is submitted the assembly will adopt it. The sentiment developed during the debate by leaders of the church indicates a strong opposition to any sort of union with other bodies.

The General Assembly adjourned at 5:30 in the afternoon.

Harold Scheur, aged five years, son of Louis Scheur, of Berryville, fell into a deep cistern yesterday and was sinking for the third time when rescued by G. B. Thomas and Henry Clay, holding on to Clay's ankles while Clay, hanging head down, grabbed the Thomas boy's clothing and pulled him out.

A company which will be known as the Virginia and Carolina Railroad Company will be incorporated within a few days with a capitalization of $7,500,000 for the purpose of constructing a railroad 200 miles long from Norfolk to Beaufort, N. C., and acquiring valuable lumber properties along the route.

The grand jury indictments against citizens, telephone companies and the Standard Oil Company for nonpayment of licenses were tried in the Corporation Court in Fredericksburg yesterday. All parties concerned, except the Standard Oil Company, were dismissed, having paid their licenses. The case of the Standard Oil Company was continued, pending a decisson of the Court of Appeals.

### Special Delivery Letters.

The officials at the Postoffice Department are considering plans for the improvement in the special delivery letter system so as to increase the efficiency of the service, which is now acknowledged to be totally inadequate. The trouble is not so much the posting and handling of the special-delivery letters, but in their delivery. Another weak point in the system is the difficulty in securing special-delivery stamps, which can only be had at the postoffice or stations. A plan is being considered to enlarge the system, so that anyone desiring to send a special-delivery letter can do so by simply affixing to the envelope, in addition to the regular postage, stamps to the amount of 10 cents, and marking the letter itself "special." This will allow anyone who desires to send a specially delivery, and not having a special stamp, to simply affix 10 cents in postage to the letter and mail it. The trouble at present is that special legislation by Congress is necessary to carry out this idea, and most likely Congress will be applied to for this permission. The greatest difficulty, however, in the special-delivery service in this country is the expeditious delivery of the letter when it reaches the city to which it is directed. Postmasters over the country have been asked to suggest some improvement, but not one has been able to propose a plan. One or two have suggested the employment of a messenger-boy service, but the trouble is the same as with the special-delivery service at the postoffice, the lack of ability to secure boys who are efficient or ambitious enough to give good service.

## Today's Telegraphic News

### The Coming Naval Battle.

London, May 27.—A dispatch to the Reuter Telegram Company from Tokio states that Admiral Rojestvensky is off Tsu Shima, in Korea straits.

London, May 27.—While there is no confirmation of a Tokio rumor that the Japanese and Russian fleets under Togo and Rojestvensky are engaged in battle, in the Korean strait, naval and military men who have watched the situation closely think it may prove true. The Russians have gone closer and closer to the Japanese fleet and it is the opinion that Togo is about ready to give battle on ground of his own choosing. It may be that the fleets are not yet actually engaged, but the best belief is that a sea fight is but a few hours off. The Vladivostok squadron, it is known, has again left its port of refuge, and it is possible that these fast armored cruisers are hurrying south to take part in the battle. News of the sea fight between Rojestvensky and Togo is awaited with eagerness and interest. There is hardly a doubt that its result, one way or the other, will determine the war between Russia and Japan.

St. Petersburg, May 27.—Admiral Rojestvensky's bold move in bearing Togo, and his fleet in Korean waters, has caused great excitemeet here. News of fighting is expected momentarily. At the admiralty here, it is believed Togo knew or surmised that the Russians will go through the Korean straits and in this respect, the orders sent to Japanese merchant vessels at Chefoo, to await instructions before sailing, are considered significant.

### Recruits for Mayor.

Philadelphia, May 27.—Apparently the stage of spectacular plays in the fight being made by Mayor Weaver, backed by the people of Philadelphia, against the United Gas Improvement Company to prevent the ratification of the extension of the company's lease of the municipal gas plant for 75 years has passed. There were important developments today, but they were not of the stirring kind which occurred early in the week. The uprising of the people to assert their rights, as illustrated by the two monster mass meetings held last night in the Academy of Music and Association Hall, has borne fruit. The first evidence of this came this morning, when two of the members of the councils who hitherto have been counted as supporters of the gas company announced that they would support the Mayor's veto of the gas lease bill.

Out of respect to the late Justice Deane, whose funeral takes place on Monday, common pleas court has continued the hearing of the injunction arguments in the case of the deposed officials against the Mayor and his new appointees until Wednesday morning, at 10 o'clock. The supercedeas secured from the Supreme Court by Mayor Weaver to set aside the injunction obtained by the old directors, who were removed, will therefore continue in effect until Wednesday, whether or not the common pleas court makes the injunction permanent. This assures the Mayor of the two days more of power over the two departments which have been the basis of the ring's strength.

Following a meeting of the directors of the United Gas Improvement Company, President Dolan sent a communication to the counsels announcing that the company would not accept the proposed lease of the plant if it had been ratified. This announcement was made at 2 o'clock this afternoon, at the offices of the gas company, when a letter in which the company tells why it has taken this course, and which was addressed to both branches of the municipal legislature was made public.

### Conditions in Warsaw.

Warsaw, May 27.—Following the proclamation issued by the governor general last evening, placing Warsaw under martial law, the streets of this city are filled with soldiers today. The military are encamped on all the squares and on the principal thoroughfares. As a result of the presence of the soldiers, the rioting, which has been in progress for several days, has ceased. All Jews remain in their homes today, for the purpose of not giving the sodiers an opportunity to begin a massacre. The authorities now have the upper hand and further outrages are not expected.

At a banquet given by Baron Korff, governor of Somsa, to officers who have been ordered from Somsa to join the army in the far East, the Baron delivered an address, in which he charged the officers, after defeating the Japanese, to return home and exterminate Russia's internal enemies. The instant Baron Korff, finished speaking, one of the officers arose and spoke as follows: "When we will return we will not follow Baron Korff's advice. He is trying to urge us to fight against the workingmen. It is not the workingman, but the bureaucrats who are the real enemies of Russia. Our poor and oppressed fellow Russians cannot harm Russia. Her welfare is endangered by those who wear uniforms similar to that of Baron Korff." Consternation immediately followed the officer's remarks and the banquet ended abruptly. Baron Korff ordered that the officer be placed under arrest and court martialled.

### Fined a Kiss, She Paid It.

Chicago, May 27.—"Defendants found guilty and fined one kiss. Fine paid in open court."

This was the entry made on the record book of the Chicago avenue police station yesterday at the conclusion of the cases against Augusta Nelson and Andrew Benson, charged with disorderly conduct. Benson lives at the home of Mrs. Nelson and was arrested yesterday on complaint of the landlady, who said that he had attemptod to stab her. At the station Mrs. Nelson refused to say that she would prosecute the case and both were locked up. When arraigned yesterday morning Mrs. Nelson said: "It was a little matter and we will kiss and make up."

"I think that a kiss would be about right in this case," said City Prosecutor Butler.

"I agree with you," replied Justice Mayer. Defendants are fined one kiss each. Do you wish to pay the fine now or shall I suspend sentence?"

"I think a suspended sentence——" began Benson, but before he could finish his statement Mrs. Nelson had thrown her arms around the neck of co-defendant and the fine was paid.

### New York Stock Market.

New York, May 27.—The general tone of the market was rather indifferent, but near the close there were sharp rallies in Western Union, Canadian Pacific and Green Bay issues.

### Bridge Dynamited.

New York, May 28.—A desperate but unsuccessful attempt was made at half past one this morning to blow up the new Pennsylvania drawbridge over the Hackensack river. The attempt followed several letters threatening President Cassatt with death and threats to destroy property of the road because of the refusal of the company to employ iron workers affiliated with the Sam Parks gang. Dynamite was placed upon a raft and allowed to float against the bridge on the tide. Fortunately the raft struck the hidden log before it could strike the bridge and a terrific explosion followed. Detectives who have been guarding the bridge against destruction were throw to the ground. Had the raft gone out of its course it would have struck the old Pennsylvania passenger bridge on which a train with six sleepers was passing, and the loss of life would have been appaling.

Yesterday afternoon there was a dynamite explosion in the excavation for the new Pennsylvania station in this city. The cause of the explosion is still a mystery. When the Pennsylvania railroad undertook to build a new bridge across the Hackensack it gave orders that none of the old Sam Parks gang should be employed. Following the announcement President Cassatt received several letters threatening his life and also intimations that the bridge would be dynamited. Daniel McNally, chief of inspectors, took a score of men and guarded the bridge day and night. On Wednesday night half a dozen men set upon William McHughes, foreman of the work, and beat him nearly to death, warning him that would be killed unless he gave up work on the draw.

### No Sympathetic Strike.

Chicago, May 27.—Hopes of the teamsters on strike in Chicago that they would receive the aid of the allied building trades union are not strong this morning. Leaders of the drivers declare that they do not understand the action last night of the Associated Building Trades in withdrawing "moral and financial support" from the striking employes. Dissension between the teamsters' union and half a dozen unions connected with the Building Trades has been frequent for two years. It is expected that the differences between the teamsters and other unions will prevent a spread of the strike through sympathy. It developed this morning that Vice President Fairbanks had been visited by President Dold, of the Chicago Federation of Labor, and a committee of his associates and asked to use his influence with Senator Platt, president of the United States Express Company, to secure concessions for the company's striking drivers. Mr. Fairbanks called up Mr. Platt on the telephone and the Senator reinterated his statement that his company will be unyielding and employ none of the strikers.

Chicago, May 27.—The departure of James B. Barry, business agent of the Express Drivers Union, for east, last night, has given the rise to many rumors that he is endeavoring to enlist the express drivers of other cities in a sympathetic strike movement that would tie up the entire railway express system. It is understood that Barry is going to New York, and Boston. President Shea says that Barry's mission is solely to raise money for the conduct of the strike.

### Murderous Act of Jealous Husband.

Beverly, Mass., May 27.—Jealous because of the attentions which he believed were being paid to his wife by a boarder, Foster W. Wardell, 48 years old, husband of Mrs. Mary W. Wardell, who conducted a lodging house in the Collier block, 86 Cabot street, shot Fred J. Hayes, aged 27, a boarder, single, at 7 o'clock last night in his room at that address, two shots taking effect, one in the brain and the other in the thigh. Hayes died just after 2 o'clock this morning. Four fires, one of which caused heavy damage in the house in which the shooting occurred, and one in the barn in the rear of the building, followed the shooting, and all are believed to have been set by Wardell to cover up the traces of his crime. Wardell made his escape and has not been apprehended.

### Woman Attacked and Beaten.

New York, May 27.—Mrs. Mary Elizabeth Lease, socialist lecturer, writer and advocate of woman's rights, was attacked and severely beaten by two burglars in her apartment at No. 64 east 122nd street, last night. Then while one of the men choked her and held a revolver to her head, the other ransacked the rooms securing, Mrs. Lease says, $112 in money and $1,000 worth of silverware and jewelry. Mrs. Lease gave a good description of the burglars to the police and efforts are being made to apprehend them.

Mr. Heilman arrived in Washington about 8 o'clock last evening with his daughter Lucy, and went immediately to the college, where his daughter Mary is to graduate this evening. He and his younger daughter were met at the gate of the campus by the daughter who is to graduate, and the happy pary began to climb the steep hill leading to the college building. On the way up Mr. Heilman felt a throbbing in his throat, and when he entered the vestibule of the school he sank to the floor and soon expired.

### The New Ferry.

The fact that the Norfolk and Washington Steamboat Company will soon fill a part of the dock at the foot of King street and dredge the remainder is hailed with delight by people who conduct business in the neighborhood as well as those whose occupations carry them there daily. For many years this place has not only been an eyesore but, it is believed, a menace to health in hot weather. When the tide recedes the bottom of the dock is exposed to the rays of the sun and filth, refuse and often bloated carcases of rodents and small animals fester under the rays of the summer's sun. As has been stated, it is the purpose of the company to fill in the site of the present ferry house and pave the same with vitrified brick. The remaining portion of the dock will be dredged, after which the surroundings at that portion of the King street dock will be rendered more respectable and placed in a sanitary condition. The work of removing the piles of the old slip is still in progress. When this shall have been completed the present ferry house will be removed 39 feet farther north, after which the construction of the new slip will be commenced. Heretofore wagons and other vehicles in passing to or from the ferry steamers were compelled to cross the flagstones over which passengers passed. More or less danger was incurred in this, but hereafter vehicles will pass from King street on the south of the passageway used by the passengers.

### The Phillips Brooks Tablet.

As already stated in these columns a tablet in memory of Rev. Phillips Brooks has been presented to the Theological Seminary near this city, by alumni and undergraduates of Harvard University. It was shipped by express and arrived in this city today. It is said to be a very fine specimen of artistic work. The dedication service will take place at half-past two on Tuesday next, May 30th. Addresses will be given by Dr. Floyd Tomkins, of Philadelphia, and by Dr. Carl Grammer, of Norfolk. There will be conveyances meeting the half-past one electric car from Washington at the station on the corner of King and Washington streets. Tickets at 50cts for the round trip to the Seminary can be obtained on the conveyances. Visitors from Alexandria and elsewhere are cordially invited to attend the dedication ceremonies. A letter has been received at the Seminary from the White House stating that as the President had accepted another invitation for Tuesday he would be unable to be present at the Seminary on that day.

### The Market.

There was an abundant supply of seasonable country produce in market this morning, which was being sold at about prices quoted in the Gazette last Saturday. Butter ranged from 25 to 30 cents a pound, and eggs sold at 20 cents a dozen. There was a plentiful display of green stuff in the line of home-grown cabbage, cuttings, green peas, onions, snap beans, &c. The display of strawberries was profuse, and some fine specimens were to be seen They ranged in prices from 5 to 8 cents a qnart. The flower exhibition was larger than usual and diverse varieties attracted the attention of many visitors. The huckster's benches were well stocked with articles in their respective lines. Several varieties of fresh and salt water fish were on the benches, among them mackerel, trout, tailors, butter-fish and shad. The latter sold from 40 to 65 cents each. Some German carp were on exhibition, but they found no purchasers. Specimens weighing from 15 to 20 pounds could be procured for 25 cents.

### New Telephone Line.

The committees on streets and public property met last night and decided to report favorably to Council a franchise to a new telephone company which, it is said, will soon open an exchange in this city. The new company proposes to erect a line of wire and install at least 750 telephones in this city within eighteen months and to charge two cents for each message.

### The Pocahontas.

The steamer Pocahontas, chartered by the Randall line, passed up the river about ten o'clock last night from Norfolk. She will be placed on the Colonial Beach route this evening and will leave Alexandria about half-past six o'clock. The Pocahontas bears a strong resemblance to the steamer Charles Macalester. Her funnel, however, is several feet higher.

### Republican City Committee.

The republican city committee of Alexandria met on Friday night and accepted the resignation of City Chairman Jos. L. Crupper and several members of the committee and reorganized the committee as follows: Chairman, Frank M. Phillips; Secretary, A. H. Agnew.

City committee—First ward, R. E. Grover and Chas. A. Dean; Second ward, Chas. M. Hancock and Jas. E. Johnston; Third ward, Paul B. Hulfish and J. Armistead Eggborn; Fourth ward, W. H. P. Kelly and Jno. S. Mulley.

On motion of Paul B. Hulfish the retiring chairman and committeeman were extended the thanks of the committee for their valuable services in the past.

On motion of Mr. C. M. Hancock the committee adopted the following resolutions:

1st. That it is the opinion and wish of this committee that every republican and independent voter in the city of Alexandria abstain from participation in the coming primary of the democratic party, because no white man should consider for a moment the relinquishment of his right to select and vote for the best man for every office on the day of election to any party in a primary, but should always reserve his right to vote on the day of election for the best qualified man for every office.

2nd. For the reason that if all parties vote in the primary, all active opposition to the ruling powers will be destroyed and the people be placed at the mercy of rings which will result in bad government; active opposition in the election being absolutely necessary to good government

3rd. Because it is conducive to good government and clean politics in the city and State.

It was further resolved by the committee that it is the sense of the committee that every citizen of this republic should be proud of the excellent man we have as President of these United States and the splendid government that the republican party has given to the nation, and we declare our purpose to strive by all honorable means to secure for Virginia a government of like kind.

Considerable enthusiasm was exhibited by the republicans of Alexandria who are determined to make a vigorous fight for right principles and for good government in Alexandria.

### Memorial Services.

As has heretofore been stated in the Gazette, Alexandria and Belle Haven Councils, Junior Order of Mechanics, will tomorrow afternoon at 4 o'clock hold their annual memorial services at the M. P. Cemetery (weather permitting). An interesting programme of exercises has been prepared. Alexandria and Belle Haven Councils will meet at the latter's hall tomorrow afternoon at 2:30 p. m., and will proceed in a body to the cemeteries. Addresses will be delivered by Rev. Edgar Carpenter, Rev. Dr. W. F. Fisher and Rev. J. A. Jeffers. Flowers will be placed upon the mounds of deceased members.

### Personal.

Col. John S. Mosby was in the city today.

Mr. and Mrs. A. D. Brockett, Mrs. George A Mushbach, Mrs. Henry F. Robertson and Mr. Robert F. Jones yesterday evening joined a party of Sons of the American Revolution on an excursion by steamer to Fortress Monroe, Yorktown, Jamestown and other points. The party will return Sunday morning.

Mr George W. Petley will leave for Philadelphia tomorrow on business connected with the safety signal he has just patented. The device is used when alarms of fire are sounded in cities.

### Property Sale.

Capt. R. F. Knox sold at auction today a lot of ground and tenement thereon, situated on the east side of Columbus street between Wilkes and Gibbon, to Richard A. Diggs for $705 cash.

The property at the corner of Queen and West streets was withdrawn after having been offered for sale.

M. Ida High et al have sold to Isaac Groves a house and lot on the west side of Henry street, between Wilkes and Gibbon.

### Star of Hope Mission.

Mr. Arthur and Mrs. Nellie Stanton, the Star of Hope Mission Workers, are at work in Alexandria. Street meetings are being held nightly the sick and the suffering are being visited and the gospel carried to a class of people who do not attend church. These workers came to this city two months ago and they have been active since their arrival. They will shortly open a Star of Hope Union Mission.

### Must Observe the Sabbath.

Chief Webster, of the police force, today issued orders to his men to stop the playing of baseball on Sundays within the city limits and arrest all offenders against this order. He has also directed them to arrest and detain at the station house till Monday for trial all intoxicated persons seen on the streets on Sunday.

Free Oxtail Soup tonight at Ben's House 114 north Fairfax street. George Benson, proprietor.

### Primary Election Monday.

The democratic primary election for the nomination of certain city and State officers will be held in this city on Monday next at the usual voting places in the respective wards. There is no opposition to some of the present incumbents. Others, however, have contestants. As was stated yesterday, the canvass has been by no means spirited, and the primary will be devoid of many features incident to former contests, from the fact that the spending of money is illegal. Of course "persuaders" in the shape of champions of candidates will be in evidence, but their exertions will be limited to talk.

The polls will be opened at the following places: 1st ward, Elks' Hall; 2d, City Hotel; 3d, Odd Fellows' Hall, north Columbus street; 4th, Friendship engine house.

### Who Can Vote.

1. A man, who has been duly registered under the new constitution may vote in the November election this year, provided he has, at least six months before said election (that is to say, not later than Saturday, May 6), personally paid all State poll-taxes assessed or assessable against him for both 1903 and 1904. "Personally paid" means that a man has paid said taxes with his own money. No taxes of any kind or description are required to be paid as a prerequisite to the right to vote except the State poll taxes referred to.

2. There is one exception to the above requirement, viz; A veteran of the civil war (but no veteran of any other war) may register and vote without paying any kind of taxes whatever for the privilege of so doing

3 A man, who has not been duly registered under the new constitution, may now be transferred (provided, of course, he is qualified in other respects) upon paying all State poll-taxes assessed or assessable against him for the three years 1902, 1903 and 1904. After being registered, he will be entitled to vote in the November election this year, provided his State poll taxes for 1903 and 1904 were personally paid not later than Saturday, May 6.

4. There is one exception to Class No. 3, viz: If a man has reached the age of 21 since February 1, 1904, or will reach the age of 21 before the November election, he may (provided, of course, he is qualified in other respects) be registered after he has paid to the treasurer $1.50. The amount so paid will be in full settlement of the first State poll-tax assessable against such young man. This sum must be paid before he may be registered. After such young man is registered, he will be entitled to vote in the November election.

Every man will find the poll-tax requirement governing his case explained in one of these four sections.

When buying loose coffee or anything your grocer happens to have in his bin, **how do you know what you are getting?** Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

### Flowers at Biltmore.

The floral parade at Biltmore, N. C., which Mrs. George W. Vanderbilt had announced for June 6, will take place on May 29.

The change is made on account of the early flower season, which is just now at its height. The carriages participating will assemble on the plaza, at Biltmore, at 5 p. m., and the parade will move at 5.15 p. m., passing over the streets of the village and returning to the plaza. There the votes for the awards will be received, after which the parade will again move south to All Souls' Crescent, thence along Biltmore road to Lodge street and the Long gate. The four most attractive and artistically decorated vehicles will be awarded a blue, red and yellow ribbon and honorable mention, respectively, the decision to be given by those who participate in the parade. Each carriage will receive a number, which will be conspicuously displayed, and each occupant will be given ballots, the voting numbers corresponding to those upon the carriages they desire to compliment.

Afterward Mrs. Vanderbilt will entertain with a tea at Biltmore House. Mrs. Vanderbilt will be assisted by the Misses Reese, Mrs. A. J. Lyman, Mrs. Cheesebrough and others.

### Facing Starvation.

The Russky Slovo of Moscow yesterday printed a dispatch from Vladivostok which indicates that the inhabitants of the whole maritime region of eastern Siberia, including the island of Sakhalin and the Kamchatka peninsula, are facing starvation on account of the situation produced by the war.

Word has been brought to Vlzdivostok from Okhotsk, eastern Siberia, that the fish supply of Sakhalin was exhausted last winter and that the inhabitants ate their dogs. There is no flour on the island and the people are confronted with death by starvation.

A similar situation exists at Kamchatka, where the people are practically left to their fate. No work is going on in the Amur district, beggars are roaming about everywhere and the Orochans, a Siberian tribe who live on the shores of the Gulf of Tartary, are dying of starvation.

The dispatch concludes: "Should the war continue six months longer starvation will be universal in all this remote region."

**"I Thank The Lord!"**

cried Hannah Plant, of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at E. S. Leadbeater & Sons' drug store; 25c.

### How to Ward Off Old Age.

The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these Tablets to be just what you need. For sale by Gibson and Timberman and W. F. Creighton & Co.

### Strictly Genuine.

Most of the patent medicine testimonials are probably genuine. The following recently appeared in the Aitcheson (Kan.) Globe: "Joe Tack, a well-known engineer, running on the Missouri Pacific between Wichita and Kiowa, lately appeared in a big one, with a picture, and when he was in this office today, we asked him about it. He says he had terrific pains in his stomach, and thought he had cancer. His druggist recommended Kodol and he says it cured him. He recommended it to others who were also cured." Kodol Dyspepsia Cure digests what you eat and cures all stomach troubles. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick streets.
